MADE IN KOREA

WACO Corp.

Product Features

- MicroMATRIX Shower Filter combine with Micro PP & Cu+ & Ionizer

Micro PP & Cu+ & Ionizer

Anti-Bacterial Process

MicroMATRIX Shower Filter
(Micro PP + Cu^+ + Ionizer)

1

Bacteria

Cu+

Micro PP + Cu^+ + Ionizer

Bacteria absorb copper ions recognized as an essential nutrient.
(Penetration of copper ions into bacteria)

2

Moisture and Nutrition

Micro PP + Cu^+ + Ionizer
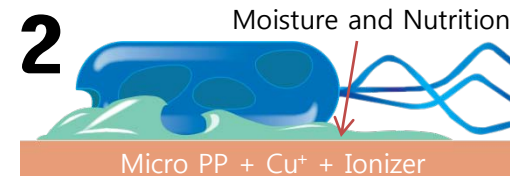

Bacteria lose Moisture & Nutrition by absorbed cooper ions breaks the wall of bacterial cell.
(Destruction of Cell membranes)

3

Active Oxygen

Micro PP + Cu^+ + Ionizer

Cooper ions extract an active oxygen through the holes of bacteria cell membrane.
(Accelerate virus damage)

4

DNA

Micro PP + Cu^+ + Ionizer

Bacteria become extinct due to DNA damages which caused by respiration and metabolism of active oxygen
(Blocking of DNA degradation and cell cloning & division)
